

About Me

Main Informations About Me And What I Love To Do.

Hello, I'm **Radu Simion**, Based in Romania.

Tech Stuff: I have a degree in computer informatics since 2007 and over 15 years experience in working with WordPress, HTML, CSS and Javascript. Over time I have designed and developed over 50 WordPress themes (free & premium) for various clients, niches and needs. My biggest WordPress theme project, took 2 years to complete and involved a lot of coding and design. You can find this project in my portfolio section. I also have a theme listed in the WordPress official repository (theme name it's Fasto), and my work is also featured on Themeforest website, so you can rest assured you are getting the best quality and latest standards for your projects.

Not-Tech Stuff: I am 37 years old, very social and adaptive person, and I love exploring mother nature on my bike or by foot, and the occasional fishing days.

My Clients

What My Clients Say About Me .

 "I found Radu to be a dedicated and organized person focusing on the best possible results for his activity. The website have been delivered properly and in time." Florentin Vasile • Product Manager	 Radu was a pleasure to work with, I just passed him a list of requirements and he knew exactly what to do with them. He was efficient and professional, and very flexible when I asked for additional adjustments. Very happy with the results and looking forward to working with him again on future projects." Ciprian Beldean • Website owner
